

B18 BUOY

A new type of buoy to meet the tough requirements of the dredging industry. Constructed to take a beating over and over with its high-impact foam-filled light stabilized polyethylene.

Designed with flashing amber dredge light to mark dredge lines. Supplied with or without decal. Available with solar or battery operated lights and a pipe with built-in weight to allow self-righting action.

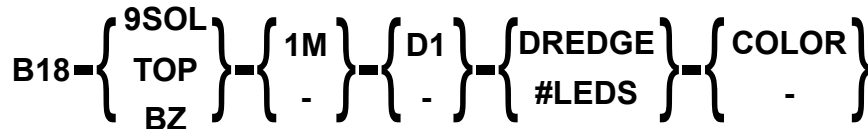

B18 - DREDGE
1M - 9SOL

B18 - DREDGE -
1M - D1 - 9SOL

SPECIFICATIONS:

Height:	1 meter above water
Diameter:	18"
Visibility:	Dredge - 2 miles
Weight:	9.25 - 10.75 lbs
Buoyancy:	30 lbs.
Flash Rate:	60 flashes per minute
Materials:	Tube - Aluminum Eyehook - Stainless steel Buoy - Polyethylene

MODEL:

Features:

- Orange reflectorized band
- High-impact polyethylene shell
- Float: 18" diameter and 6" thickness
- Weighted to self-upright
- LED Colors available in red, green, white, amber (dredge 60 fpm)
